

Schedule of Authorized Reclassifications FY 2009

Agency heads may be granted authority by the State Personnel Board to reclassify positions within a class series, removing the requirement that each individual reclassification transaction be separately justified. Each year on a date prior to fiscal year conversion, the State Personnel Board allows each agency to submit requests for changes to the authorized schedule of reclassifications.

By definition, a reclassification is a change in the classification of an individual position to a higher occupational class within the same occupational class series, where the change in job title is a result of the individual obtaining certification or licensure or moving from trainee level to proficiency level. Reclassification authority also allows the agency to automatically lower the classification when the position is vacated to allow for hiring at the entry level.

As stated in Sections 5.03.4 and 5.03.5 of the Mississippi State Personnel Board Policy and Procedures Manual, it is the policy of the State Personnel Board to provide for the reclassification of a position belonging to a class series by recognizing the increased value of an employee who has acquired additional experience, skills, and/or education which is directly related to the job. Reclassification provides a career ladder affording mobility for qualified individuals to advance to higher classified positions, which are substantially similar in the type of work performed. The authorized salary for reclassification of an occupied position is determined in accordance with the provisions for the Variable Compensation Plan Promotional Formula.

GROUP A - APPROVAL:
